

UN-080BA-IR8

LED White Strobe Lamp

FEATURES

- White light LED for use with video signals.
- Have a working distance of not less than 30 meters.
- can adjust the brightness level
- with frequency of use 50/60/75/90/100/120Hz

Specification

Model	UN-080BA-IR8
Mobile & Traffic	
working system	ATMEL AVR MCU
power frequency	50/60/75/90/100/120Hz
bulb type	LED White Light (6500K)
number of bulbs	20 tubes
working distance	20-30 meters
RS-485	1 channel
operating temperature	-30°to 70°
relative humidity	10 – 95%
voltage	110-240VAC
electric power	30 W
water protection standard	IP66
safety standards	CE/FCC
Factory standard	ISO14001-2015, ISO9001:2015
Size	250 × 210 × 109mm.
